

Appendix B Officer Views

The following views were created to allow viewing of series of calendars without requiring explicit linking of a TeamUp User Account to a Calendar Group. These calendars are secured using an encoded URL and anyone who obtains the URL will be able to access this information. Once a user gains access to the calendar, it may be stored by the user's device in a manner where the password is not requested again to access. These calendars can be shared to a person's personal calendar system (i.e. Outlook or Google Calendar, etc.) If a calendar view must be re-secured, the link must be removed from the TeamUp Settings by an administrator and re-created. The new URL will then need circulated to users with a need to access (as determined by the appendant body.) **Current as of 5/9/2022.**

View	Describe Calendars in scope
IN AASR Valley - Evansville Officers	AASR Evansville Officers, Public, COD Public
